Drill down into the complete ownership data and detailed property information. So you don't miss out on the full facts. Take advantage of the most comprehensive transactions platform, giving you the best opportunity to make informed decisions.

You will find more information of the Transaction module [here](#).

DATSCHA

We exist to help you spend less time gathering data, and more time doing business. Datscha helps companies reduce the time they spend on research by hours, days, or even weeks. We provide you with the online solution for faster and more accurate decisions by turning data from the best public and private sources into knowledge enabling you to focus on decision making. Our core DNA is to collect, aggregate, and visualise public and proprietary real estate data in the market's most modern and intuitive web-based solution.
